Wednesday 10/28 Regional final <u>if home</u> 7:00	6:30-Done Braden Bollin Volunteer	Braden/Braden

Dear Parents of Freshman Class:

The freshman class fundraiser is volleyball concessions. Some of us are new to this; many just need to look at the schedule to see when to show up! I thought it would be good to start the season off with the answers to some often asked questions.

Why are the freshmen in charge of volleyball concessions? Volleyball concessions are the fundraiser for the freshman class.

What are the dollars used for from the volleyball concessions? The proceeds are used for Snowball; the freshman sponsored winter dance, their future Prom, and their Senior Retreat.

How many times are freshmen required to work? Class officers and their families are working multiple shifts while all others are once per season.

Is it important for parents to help? Yes!! The more workers we have, the better service we can provide to our guests. It also helps aid in getting set up and tearing down in a timely fashion so that all families can be on their way. On the schedule where you see your child working a shift, a parent comes along to work that same shift. Each family will have one student and one parent worker to cover a shift.

What if we are unable to work the shift assigned? Please find your own replacement by switching with someone. When everyone does their part no one is overworked! Please text Kellie to update any shift changes.

Who is in charge of concessions each night? The freshman class officers and their parents - Braden (President) and Kellie Bollin, Neveah (Vice President) and Trista Hodgson, Haley (Secretary) and Carrie Pohlen, Zoe (Treasurer) and Jenni Vacura.

Will the concession stand look different this year? Yes! Because of sanitation and mitigation requirements we will only be allowed to sell pop, candy and pizza. That will cut down considerably on set up and clean up for all of us.

Thank you everyone for helping out!

Freshman Student Council Officers and families: Braden, Neveah, Haley and Zoe
